It is the superior corrosion resistance as a result of Gray's proprietary in-house plating process. In recent salt spray tests conducted by an independent laboratory the Gray socket showed the least amount of corrosion damage compared to the other competing products. In addition to superior corrosion resistance Gray chrome sockets also feature a distinct brilliant jewellery like finish. Gray sockets and accessories are backed by a Lifetime Warranty, making them an investment for life.

# Grip-on® - the widest and most modern range of locking tools in the world.

Here are just a few reasons why Grip-on is a superior alternative to ordinary locking tools:

- Finished with an epoxy resin coating that is 10 times more corrosion resistant than nickel plating
- Tools feature a piano wire spring ensuring superior tool life and reliable opening and closing of tool
- A no pinch easy release lever eliminates painful accidental pinching of hands and fingers
